How did the Theory of Evolution become a reality in Science?

What impact has it truly had over time?  
Why do people still believe it?

We will discuss needing to help people see the Theory for what it is, along with what we, MCF, can do about it now and in the future.

We will have an open discussion about the direction of the ministry, with Dr. Ken Funk's passing to glory, and Walt Sievertsen's retiring as President after 25 years of service.
